Paul Whitaker Photography Wedding Packages

I provide fixed price packages with no fixed maximum time. These packages are designed to offer you the flexibility to decide which elements of your wedding day you'd like photographed and by offering this for a fixed, all-inclusive price you have the peace of mind in knowing exactly how much you need to budget for your wedding photography, and don't have to worry about extending the photographers contract on the day to provide additional hours if you underestimated the duration or the wedding runs behind schedule for any reason.

The Wedding Ceremony Package is designed to cover your complete wedding ceremony, starting with your guests arriving and preparing at the wedding venue and includes formal and group photographs and romantic photographs of the bride and groom after the ceremony.

The Ceremony Plus Pre-Wedding Preparation Package includes additional time before the ceremony to photograph the bride preparing for the wedding at home.

The Full Day Package includes coverage of the full day from the bride preparing at home, the ceremony, post ceremony formal and romantic photographs and coverage of the wedding reception until an agreed point in the evening's proceedings (after the first dances - suggested as a convenient cut-off point.)

I shoot digital, with backup equipment, and provide the images to you on CD for you to use as you please. Within two weeks of the wedding, you'll receive a CD containing the best images from the day and I'll post photos on the Internet for you, your family and friends to view and order prints if required. The CD will contain high-resolution images that are ready to print at a lab of your choice and at a size of your choice. Following payment, I sign over rights to the photographs to you. If you'd like me to take care of any additional printing you require then I provide standard rates for different sizes in the wedding contract.

Although I offer fixed rate packages to make life easy for both of us, I understand that everyone has individual needs, especially when you want to make your wedding day as special and as perfect as it can be. Therefore I would be happy to discuss any particular requirements you may have, and modify any of my package offerings to suit your needs.
